WHAT WE DO

Established in 1965, ICUF is the collective voice of Florida's private non-profit colleges and universities. ICUF is a 501(c)(6) association incorporated in the state of Florida.

The association performs four important functions that benefit students, families, public policy leaders, businesses, and Florida communities:

- Public policy advocacy to support post-secondary education and ICUF's member institutions. In particular, ICUF's advocacy work is focused on student aid, access, diversity, and economic development.
- Research about the performance and contributions of independent college and universities in Florida.
- Public information to support students and their families as they make choices about post-secondary education.
- Development of partnerships, such as group purchasing and shared services among ICUF member institutions.
